

The JESUS Film Project® and YouVersion Partner to Help More People Explore and Understand the Bible—ORLANDO, Fla., March 4, 2013

NEW PARTNERSHIP ALLOWS MOBILE USERS TO EXPERIENCE BIBLE WITH VIDEO ON-THE-GO

Jesus Film Media™, the digital expression of The JESUS Film Project, is excited to announce that YouVersion is being added to our growing community of digital partners to help make the Bible more accessible and easier to understand for people around the world.

Today, YouVersion will unveil the new video feature of its Bible app, which will offer the *JESUS* film. A visual interpretation of the gospel, the *JESUS* film can help users decipher stories of Jesus while studying the Bible.

In addition to the *JESUS* film, YouVersion is also offering clips of the *The Bible* miniseries by Mark Burnett and Roma Downey. These two video depictions of the Bible are offered as tools to learn, experience and share the stories of the Bible.

JESUS is also accessible in more than 1,150 languages through Jesus Film Media, available online and on your mobile device (app.jesusfilmmedia.org). With access anywhere, anytime, Jesus Film Media users can instantly view or share films and segments with anyone at the click of a button. Through technology, barriers like language, literacy and more are being eliminated, so everyone can be engaged with Jesus through film.

Jesus Film Media

Jesus Film Media is an extension of The JESUS Film Project's overall vision to reach everyone, everywhere by equipping people to use our tools and resources in new ways! Finding just the right resource or tool has never been easier. Go to <http://jesusfilmmedia.org> for more information.
