PURPOSE

Jesus Film Project exists to equip believers to share the life-changing story of Jesus with everyone on Earth through films, apps, digital resources, strategies and diverse media tools in thousands of languages.

SCOPE

Jesus Film Project believes everyone, everywhere should have access to the life-changing story of Jesus—in their heart language and their heart medium. Their large online library of free-to-use, feature-length films, short films and digital ministry tools in several languages helps believers share the gospel with the world. More than 1,800 ministries use Jesus Film Project resources globally, often in remote locations via a makeshift screen and portable projector—offering some audiences their first look at a movie image.
